

Bumpstop®

.co.uk

Made in
England

Safe and secure fixing for ALL bikes
stationary or in transit.

- **Easy (one man) loading** and removal of bike. Holds bike securely upright.
- **Fully secure** - basic security when used with a lock through the front wheel and around the in-built security bar.
- **Thatcham version** enables standard transport usage and HIGH security as a ground anchor.

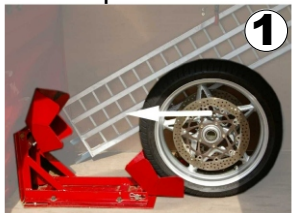

- **Easily fixed** allowing use in car parks, garage, van, trailer, workbench, show stand etc.
- **Adjustable** for wheel sizes from scooter to offroad. Holds both Vintage and Modern motorcycles.
- **Light weight** all welded construction.
- **Allows working access** to all areas of the fully supported bike.
- **Large sub-plate** available for fixing in van, trailer and can be used for free standing.
